

Specific public health measures to be taken in schools at Alert Level 2

- Parents are asked to keep any sick children at home. If a sick child comes to school, they will be sent home.
- Children, young people and staff should be far enough away from each other so that they are not breathing on or touching each other, coupled with good hygiene practices and regular cleaning of commonly touched surfaces. There does not need to be a specific measurement but where practicable 1m should be used as a guide, particularly between adults.
- Hand sanitiser at entry to class rooms and in shared spaces. Soap, water and the ability to dry hands must be provided in bathrooms. Due to concerns with sourcing ongoing supplies of hand sanitiser it would be great if children were able to bring their own personal supply to school.
- Where practicable ensure that children and young people regularly wash and dry hands, cough and sneeze into their elbow, and try to avoid touching their face.
- Physical education classes and break time activities can include access to sports equipment including playgrounds but hygiene practice should be observed after playing with equipment.
- Disinfect and clean all surfaces daily. (Teachers to support Dave in managing this)
- Contact tracing registers must be set up and identify which children and adults are on site, in each teaching space, including recording if there is a different composition of children and adults during the day. This includes recording visitors to the site, including parents.
